

## Hussar People Gather Around Banquet Board

Community Hall Is Scene of Banquet, Concert, and Dance Thursday, Nov. 30—Other News Notes from Hussar District

The Thanksgiving dinner, dance, program, and card party given by the Board of Management of the Hussar Community Hall Thursday evening last week was a big success. There was a large crowd present and they all enjoyed a jolly time.

Three tables the length of the hall were decorated with vases of flowers, bowls of fruit, and laden with delicious food. During the banquet and for the dance, the Hussar school orchestra furnished the music, and people were pleased with the creditable manner in which they played. Mrs. E. J. Bell gave two readings well. Her parties gave a humorous talk and Chester Thew and Louis Hought, dressed as negroes, gave a sketch, sang, and played their banjos. The boys made a hit, and were called back several times.

Five hundred was played at nine tables, and Mrs. Kemner won the first prize for the ladies' consolation. Dancing was followed by a large number of people. There was an old fashioned waltz, and the prize for this was awarded to Mr. and Mrs. Roy Hulen.

The net proceeds for the board amounted to \$164.

A number of people from Makepeace and Chancellor were there, as well as many from the district surrounding Hussar.

Geo. Gunning left Saturday for Spokane, Washington, on a business trip.

Mr. and Mrs. McDonald were in Bassano several days this week.

Mrs. Currie and children have gone to Washington where they will spend the winter.

Mrs. Verne Haddock, who was operated on for appendicitis at the Bassano Hospital last Saturday, is doing nicely.

Born to Mr. and Mrs. Blake at the Bassano Hospital, on Saturday, Nov. 26th, a baby boy.

Mr. and Mrs. James King and Mr. and Mrs. Clarence Armstrong are Calgary visitors this week. Mr. and Mrs. E. Betts are also in the city this week.

A sleigh load of people drove out to the Atlas school for the dance Saturday evening. All report an enjoyable time.

Mr. and Mrs. Will Hoagland have moved into town for the winter.

Hussar people have been enjoying skating on the Gabriola Bay near town.

W. G. Nelson has installed a Westinghouse radio in his home.

Mrs. Middleton, of Calgary, has been visiting her parents, Mr. and Mrs. Donald, this week.

The school children have begun work on their Christmas program.

Mr. Croxy had an auction sale on Monday. James King acted as auctioneer and E. J. Bell clerk.

Mr. Croxy has purchased the house which was owned by the Crown Lumber Co. and he will move his family to town that his children may have school advantages.

The Women's Institute met at the home of Mrs. E. J. Bell Tuesday afternoon, and decided to begin the basketry work in June 27. The officers of the institute are: president, Mrs. E. J. Bell; 1st vice president, Mrs. C. Heeser; 2nd vice pres. Mrs. E. J. Gundersen; sec. treas. Mrs. T. Burdett.

Rev. Barton gave a splendid sermon.

## Gem News

GEM, Nov. 30.—The Gem postmaster is to be congratulated on his pluck. Never yet, in all kinds of storms and over weather, has he failed to return the same day with the mails.

Tuesday was turkey day at the H. Fulton farm when all the poultry was killed, plucked, and prepared for the market. Everybody was well.

Mrs. Schreiber was a Monday caller on Mrs. Laichner.

The men employed on the C. P. R. freight left the Colony on Saturday morning for Brooks, closing the season for 1927.

B. Bejuma journeyed to Medicine Hat on Saturday where he spent Sunday, returning to the Colony on Monday, later leaving for Arrowwood to spend the week with relatives.

S. Selridge left the Colony on Tuesday morning. He plans to visit Seattle, returning later with Jack G. Blackman, who arrived from Nebraska in March of this year.

It is to be congratulated on his first crop. Four thousand bushels of wheat, oats, and barley, was threshed out of his crop, and he is quite pleased with the result.

Mrs. Dietzmann has a record for turkey raising as she is shipping the second number of turkeys from this district.

Mrs. A. P. Miller still holds the record of shipping the largest number of turkeys from this district.

His shipping total over 100 for 1927. Lloyd Roach, of the Alberta Gophers, is spending a couple of days inspecting the various telephone lines in the district.

Stanley Selridge was a Sunday afternoon caller at Maguire's.

Gordon Douglas is living at the home of P. Williamson while attending school here.

Another old timer arrived during the past few days. Bob Bradford has taken up his quarters with our local post master and will be in charge of the post room.

P. Williamson was a business visitor to Brooks on Monday and Tuesday.

Miss O. Koelling spent a couple of days falling with Mr. Small during Mrs. Small's absence in Bassano.

Leaving numbers 406 will be the last of the season from the pool leaving Bassano this week for pool headquarters.

## KING—HERFORD

A pretty wedding took place at the home of Mr. and Mrs. J. P. King at 10 o'clock Sunday morning, Nov. 27, when Miss Ruth Herford became the bride of Mr. Franklin King. The bride wore a beautiful old gold dress trimmed with silver lace. Miss Violet King was bridesmaid, and Mr. Wm. Herford supported the groom.

Rev. A. O. Thomson, of Bassano, tied the nuptial knot. A number of friends and relatives of the bride and groom were present.

The marriage ceremony, and accompanied the bride and groom to the house, where they took the noon train for Calgary.

Further improvements have been made in the newly acquired Bassano Masonic Hall, just down the street from J. W. Bulmer's store.

The hardwood floor has just been laid.

Hardwood Floor Laid in New Masonic Hall.

With a membership of twelve ranks the Bassano Curling Club will open the curling season on Friday night, Dec. 2nd, with the first two games in the presence of the first prize competition. The draw is as follows:

Friday, Dec. 2nd  
President vs. Vice President  
Hoot, Mon! Hoot!

## Preparations Are Being Made For Turkey Shipment

Turkey raisers of the district are preparing for the annual turkey shipment of the Alberta poultry pool.

The flock will be shipped from Bassano on Saturday this week. Dec. 3rd. A. P. Miller, and C. M. Fisher, are in charge of the work for this district. Thus, they are in charge of the Bassano shipment which will be made on Monday, Dec. 4th.

In past years turkey raisers have obtained a good price for their birds by selling through the poultry pool, and most of the turkeys in this district are now marketed through this organization.

The conference was held for the purpose of discussing matters of importance to the people, and some very interesting talks and discussions were given.

A. G. Bond took part in the discussion of industrial development, which included reporting of the year book industry, along with other provincial industries.

Wm. McLaw acted as committee man on special resolution committee, and presented a resolution that the local boards of trade compile a list of lands in their district which are for sale and lease, with details of price, type of land, etc.

The Bassano Land Settlement Board will co-operate with the local boards in this matter, it is planned.

E. P. Currie and E. A. Beck conferred with other delegates in connection with important matters pertaining to Bassano and district.

The first part of the evening will be devoted to whisky, followed by lunch, and then dancing. The local Hinton-Hampson orchestra will play.

Chas. Waltham has 50 head to be sold by Public Auction.

Fifty head of farm horses will fall under the auctioneer's hammer next Tuesday, Dec. 6th, at a sale to be held at the farm of Chas. Waltham located two miles south of Gem post office.

Twenty head of well broke animals, mostly matched teams, the other thirty being young grade broods, weighing from 1200 to 1600 pounds.

This is the biggest sale of farm horses held in the district for some time, and it is expected a big crowd will attend the auction. It is anticipated the sale will attract everyone in the Gem and adjacent districts who are in need of farm horses.

In addition to the horses, Mr. Waltham will offer for sale a number of dairy cows, and a quantity of farm machinery and household goods.

Ben Gray, the Gem auctioneer, will cry the sale.

## Bassano Delegates At Conference In Calgary

Four Members Represent Bassano at Gathering of Boards of Trade from Many Alberta Towns

President E. P. Currie, A. G. Bond, sec. treas. Wm. McLaw, and E. A. Beck, represented the Bassano Board of Trade at the conference held in Calgary last Monday and Tuesday, Nov. 28 and 29.

Twenty-seven boards of trade from all over the province were represented at the gathering, which was held in the rooms of the Calgary Board in the Loughheed building.

The conference was held for the purpose of discussing matters of importance to the people, and some very interesting talks and discussions were given.

A. G. Bond took part in the discussion of industrial development, which included reporting of the year book industry, along with other provincial industries.

Wm. McLaw acted as committee man on special resolution committee, and presented a resolution that the local boards of trade compile a list of lands in their district which are for sale and lease, with details of price, type of land, etc.

## Gem Farmer Grows Best Alfalfa Seed In Canada

T. J. Royer has Best Canadian Exhibit of Alfalfa at Chicago Hay and Grain Show—Takes Third Prize With Registered Gray

T. J. Royer, of Gem, won third prize with his alfalfa seed exhibit at the big Chicago International Hay and Grain Show this week. First prize went to Idaho, and second to Montana. Mr. Royer's exhibit was the best Canadian sample, and took third place against a big field of competitors.

Mr. Royer farms a mile east and half a mile north of Gem post office. He has lived in the district since 1914, but has only been growing alfalfa for the past three years. The exhibit which won third prize was registered Grimm, and the original stock came from the Brooks Alfalfa Seed Growers Association, of which Mr. Royer is a member.

Mr. Royer's success is unusual, as this is the first year he has taken part in a seed competition. The 1927 season has also been a poor one for growing seed alfalfa.

Other prize winners in the alfalfa seed class were Don Loney, of Cassville, fourth; N. D. Ferguson, of Duchesne, seventh; T. White, of Brooks, eighth; W. A. Philpott, of Brooks, ninth.

The sweepstakes for wheat went to C. Edson Smith, of Cornwallis, Manitoba, with a variety of wheat grown on Montana 26, a selection made at the Montana State College by President Atkinson. From Kansas, the weight of this wheat was 65.5 pounds, more than a pound less than Trelle's hard red spring wheat that was first in that class and reserve champion. Last year the championship and reserve were reversed between these two men.

In the 25 platings for hard red spring wheat, Albert was first, followed by Saskatchewan 26, and Manitoba 2. The sample from New South Wales came just under the line for 25th place.

In the Durum wheat Montana took the first eight placings; J. W. McGehee, of Manitoba, was 9th; H. T. Tucker, of Manitoba, was 12th.

Many improvements have been made in the dry goods and ladies wear department of McKee's store during the past week. D. Cathro, manager of this department, has been busy rearranging the stock and display tables. A new feature added is a display cabinet at the rear of the store. This cabinet is fitted up with a wide glass front, and illuminated with concealed electric bulbs.

Wm. Darabrough, Laura, Sask. was 14th, and A. S. Unsworth, Pilot, Sask., was 15th.

Herman Cralle, of Wembley, Peace River district, won the sweepstakes in oats for the second successive year.

First Dominion Champions.

The MacLambert Trophy, representing the first aid championship for the Dominion of Canada, was carried off this year by the champion Ontario team of the Canadian Pacific Railway.

First aid teams of the Canadian Pacific this year carried off all Dominion trophies in competitions in which they were eligible. These included the Wallace Neale Trophy, symbol of first aid championships among all railways in Canada, the states of Maine and Michigan; the Sherwood Police Trophy, representing the championship among all uniformed police forces in the Dominion, which was won by the Regina Police Team No. 1, of Montreal.

The Ontario trophies were presented recently in the board room of the Canadian Pacific at head quarters in Montreal in the presence of E. W. Beatty, chairman and president of the C.P.R. and a large gathering of officers of the Canadian Pacific Railway.

### THE BASSANO MAIL

Wallace J. Smith  
Editor and Publisher

Subscription \$2.00 a year, \$2.50 for the United States

The longest day in the year is the day before Christmas--to the small boy who is waiting for Santa Claus.

Speaking of Chicago bandits--he who gets, gets.

New model Ford, passing old model "T" by the roadside. "Alas, my poor brother."

The Brooks Bulletin says "compassionate marriages are now being tried out in the United States." Wherein man shows his great humanity to woman.

In publishing the story of Sergt. Jim Wright on the Arctic patrol last week, we gave the distance from here to Baffin Island as fifteen hundred miles. The distance is really more than two thousand miles in a direct line, but in making the measurements our speedometer got frozen up in the extremely low temperatures encountered in the trip, and the instrument failed to measure accurately.

### PROBLEMS IN THE NORTH

A number of citizens in the northern part of the province are now advocating secession of the Peace River district and the formation of a new province as a solution to their transportation, administration, and road problems. What the results of such a move would be it is difficult to foretell but it is safe to surmise that under the present condition of the district, the administration of it as a separate province would be an extremely complicated problem.

As it is today we have too much government already, and to form a separate province for the Peace River district may stand in the way of progress rather than assisting it. The agitation for a separate province has at least brought to the attention of the general public of Alberta the seriousness of the problems of the Peace River district. The peculiar isolated location of the district presents a great natural barrier that hinders progress that would otherwise be more rapid. However, improved transportation and other facilities will come gradually with more extensive settlement and increased population. The country is young and impatient, and the cry for secession may be the result of this rather than a genuine sincerity in the belief of a separate province.

### COMPULSION OR CHOICE

That every farmer become a member of the Wheat Pool, whether he wishes to do so or not, has been suggested by a number of over-enthusiastic advocates of co-operative marketing. This paper is a supporter of the Alberta Wheat Pool. We believe it is a good thing for the farmers of this province, but we believe that to rob the farmer of the right to dispose of his grain as he wishes, and conscript him to the Wheat Pool would be inimical to the success of the organization.

It should not be necessary to resort to special legislation of this kind to operate the pool. The pool should stand on its own merits. It has done so in the past, and the fact that so many farmers have again joined the pool for another five year term would indicate that there is no lack of confidence in the principles embodied in the pool system.

No farmer should be forced to join the pool. The idea is absurd. The plan might be all right in a country like Italy where the Duke is lawmaker, judge, and arbiter, but in Canada where we enjoy political and religious liberty, the time to come, go, and administer our private affairs as we please, the idea of conscripting the farmer's grain is not to be entertained for a moment.

The Wheat Pool is getting along all right, and should continue to operate without resorting to such compulsory measures.

### ALBERTA GRAND CHAMPION STEER BRISON HIGH PRIZE

The grand champion steer at the Toronto Royal Winter Fair, "Chato U. A." a Shorthorn bred and exhibited by the University of Alberta, sold at auction to T. Eaton Co. Ltd. following the show for the record price of \$145 per pound, or a total of \$21825. The Aberdeen Angus steer sold by C. H. Richardson, of Devon, and contributed to the University of Alberta after winning the championship of this breed for the second year in succession, was purchased at the same sale by the Canadian Packing Co. Ltd., of Toronto, at 72c per pound or a total of \$4640. The prize obtained for the grand champion steer following last year's show was 56 cents a lb.

### ALBERTA CROP MOVEMENT AID VANCOUVER

The Alberta crop movement is the premost factor in Vancouver's prosperity so far as foreign trade is concerned, stated A. M. Doller, of Vancouver, president of the Canadian Chamber of Commerce, who has visited Calgary and Edmonton during the past week.

"Between October 1 and the end of January next, it looks to me as if

Vancouver will move between eleven and twelve million bushels of wheat, practically all of which will be from Alberta," added Mr. Doller. The grain movement, he stated, was proceeding smoothly, with plenty of ships available at Vancouver, and little difficulty is anticipated in handling shipments for some time yet.

### Low Bridge

She--"It is dangerous to drive with one hand!" He--"You bet. More than one fellow has run into a bridge doing it!"

### Insulting Squawk

Salesman (discussing details with purchaser)--"And what kind of a hogger would you like, sir?" The New Owner--"One with a note of disdain."

# Christmas Suggestions from McKEE'S STORES

Stores transformed into a veritable fairyland. - Stores choke-full of the most acceptable, useful, and dainty gifts.

Stores where you can purchase presents which will be appreciated by your friends.

## Gifts for Everyone - Do Your Christmas Shopping Early - Gifts for Everyone

### Christmas Handkerchiefs

Most acceptable of Christmas Gifts—The loveliest handkerchiefs in crepe de chene, Jap silk, fine lawn, with beautiful embroidery; hand painted and lace trimmed. Boxed or single. Prices from—

20c each to \$1.50 per box

### Ladies' Sweaters

We have the most up-to-date selection of pretty sweaters for gifting.

Wouldn't mother or sister just love to have one of these. In fine wool, and silk & wool; modestly priced, from—

\$3.50 to \$6.50

We box and wrap, ready for mailing.

### Silk Lingerie

We suggest Silk Lingerie as a charming gift.

BLOOMERS - VESTS - SLIPS - NIGHT GOWNS - PYJAMAS  
of the loveliest silks in new shades of Peach, Sand, Orchid, Gooseberry,  
Pink, White, etc.

Bloomers	Vests	Slips	Nighties	Pyjamas
2.25, 2.95.	1.75, 2.00.	3.25	4.50	5.50

### A Gift for Mother

Think Mother would like a LUNCHEON SET of pure Irish Linen, beautifully embroidered; or perhaps a pair of the loveliest PILLOW CASES, embroidered, hemstitched, or scalloped ends; or what about a dainty TOWEL SET?

She would appreciate any of these gifts. Prices from—

\$1.50 to \$4.95

### CHRISTMAS HOSIERY

Silk hosiery will be the ideal gift this year. Hosiery of pure silk, silk and wool, or pure wool, in all the most beautiful new colorings. Priced at—

.85, 1.00, 1.25, 1.50, 1.75, 2.00 pair

Give Her Silk Hosiery this Christmas

### The Gossard Gift

CORSELETTES and BRASSIERES

The renowned Gossard quality, — make a most suitable and useful gift. Full line of these goods have just arrived.

Corselettes from  
\$1.95 to \$6.00

Brassieres from  
50c to \$3.00

## Here is another list to choose from

Ladies' Gloves  
Writing Compendiums

Ladies' Slippers  
Ladies' Shoes

Ladies' Scarfs  
Children's Wear

Garter Sets  
Dress Lengths

Garter and Shoe Tree Sets  
Household Gifts - Fancy Goods

### Slippers

The ideal gift.  
Soft kid leather,  
Romeo style.

Jaeger carpet  
slippers, camel  
hair lined.

### Men's Hose

Men's Half Hose for gifts.  
Beautiful new designs, in silk,  
silk & wool, and pure wool.

Currie  
Garters, Suspenders etc.

Large selection of men's Suspenders,  
Garters, etc. Boxed and single; from —

50c to \$3.00

LANGMUIR LUGGAGE

### Santa Claus is Coming!

Toys Toys Toys

DOLLS, TEA SETS, KNITTING SETS, GAMES, ERECTORS, MECHANICAL TOYS  
TEDDY BEARS - RABBITS - DOGS - DRUMS - HORNS - DULCIMERS  
CHRISTMAS STOCKINGS - CANDLES - CHRISTMAS TREE DECORATIONS - BELLS

### GROCERIES

Our prices compare most favorably with mail order catalogues, and for quality the best is none too good for us. We take a pride in selling good goods.

#### NUTS

This season a quantity of old nuts have been put on the market. They are cheaper. You can rest assured that the nuts we have on sale are absolutely new and fresh. We save to that.

ALMONDS - FILBERTS - WALNUTS.  
BRAZILS - PEANUTS  
Shelled Walnuts and Almonds  
All fresh and at rock bottom prices

#### APPLES

Wonderful variety to select from.  
WAGNERS - SPITZ - SPYS  
DELICIOUS - BALDWIN - JONATHANS  
CRIMES GOLDEN  
Wrapped or in crate

#### CHRISTMAS GROCERIES

Christmas Trees - Holly -  
Shelled Walnuts - Shelled Almonds  
Table Raisins - Ground Almonds  
Almond Icing - Puffed Raisins  
Candied Cherries - Boxed Chocolates  
Boxes of mixed Candy  
Bulk Dates - Table Figs  
Mixed Peels (cut and whole)

#### CHILD'S SAVINGS PLAN

Remember that we give scrip on all purchases in each department, except on flour and sugar, and it paid by the 10th of the following month. This is a wonderful saving scheme, and many children already have a considerable balance to their credit in the bank. A bulletin is posted in our store giving the amount. If you are overlooking this child's saving plan you are missing something that is really valuable.

### High Grade Ties

In the season's latest colors and styles. Individual boxes.

\$1.00 - \$1.25  
\$1.50 - \$2.00

Men's and Boys' Tie and Handkerchief to match—Lovely pattern; from—  
\$1.25 to \$3.25

### Pure Wool Sweaters

Men's heavy Jumbo knit coat sweaters and pullovers.

Fawn - Maroon  
Jockey Red  
Black - White

#### BOYS' PULLOVER

with two button collar; lovely colors; all sizes.

## NEW FORD CAR IS NOW ON DISPLAY

Model "A" is Radical Departure from old Model "T"—New Model Embodies Speed, Flexibility and Beauty

The following information is the official announcement of the new model Ford car, and comes direct from the Ford offices in Ford, Ontario.

The new Ford goes on display Friday, December 2nd. Known as the model "A", it replaces the model "T" which for nineteen years made automotive history, and comprises a line of six passenger models supplemented by light delivery and truck models.

Featuring a wide range of bright color combinations, great power, high speed, flexibility, roadability, unusual getaway, economical operation and rugged, simplified construction are cited as outstanding features of the long awaited car. Design and construction hitherto peculiar to high-priced machines are said to be incorporated in the new product.

The lines of the new Ford are distinctive. The wheelbase is 103 1/2 inches, and the lower suspension and deeply crowned gracefully contoured one-piece fenders are pleasing to the eye and suggest stability. Bodies are of all steel construction and a new type of one-piece, steel spoke wheel, employing a drop-centre tire and eliminating the old fashioned rim and rim clamps is employed. A selective sliding gear transmission is used, with a multiple dry disc clutch, and the rear axle is of the three quarter floating type with spiral bevel gears permanently adjusted and noiseless. Full torque tube drive, which relieves springs of all driving strain, is featured, and four wheel, mechanically actuated, internal expanding brakes have been incorporated in the new product. Throughout the design of the car ease and quietness of operation, great strength and accessibility of all parts have been kept in mind. According to Ford officials, the purpose back of the new car is to provide a small car which will incorporate all light car advantages with the features

of comfort, speed, and safety heretofore peculiar to heavy and expensive machines. They confidently assert, has been accomplished in the new model "A" Ford.

The four cylinder power plant of the new Ford develops 4 horsepower at 2,200 revolutions. This is practically double the power of its predecessor, but this great increase in power has been effected without sacrifice of economy and it is claimed that the new car will afford thirty or more miles to the gallon of gasoline. This remarkable increase in power is effected through use of a larger cylinder bore, by static and dynamic balancing of flywheel and crankshaft, and by the use of light reciprocating parts. The new motor is practically vibrationless owing to the careful balancing of these parts.

The model "A" motor incorporates a number of unusual features of design which have been born of years of experiment. Most of these features make for long life, simplified service and more economical maintenance. Lubrication is a combination of the pump and splash systems, and cooling combines thermo-siphon and pump circulation of water. The water pump is so designed that it comes into use only when the motor is turning at a fair rate of speed, and overcooling at low speeds or in cold weather is thus avoided.

The motor itself is essentially a low speed motor, developing its maximum power at 2,200 r.p.m. This is consistent with established Ford practice which always has aimed at securing a minimum amount of piston travel per mile of road travel, with a resultant minimum of strain and wear of moving parts.

The transmission departs from conventional light car practice in the use of ball and roller bearings instead of bushings. These bearings make for more satisfactory operation smoother performance and

longer life. The steering gear also is unique in the light car field, being of the irreversible worm and sector type with the worm carried in ball bearings. Front and weight of the car is carried on roller bearings which are placed at the top of the spindle bolts, and the result of these refinements is unusual ease in steering.

Transverse semi-elliptic springs are used, and for it Ford engineers claim the following advantages: that the springs contact with the frame at only one point and that is the centre line of the chassis with the result that the chassis is subjected to no twisting strain; that it permits the full torque tube drive; that it reduces unsprung weight to a minimum and improves riding qualities; that the springs have only their natural function of absorbing road shocks to perform, and that danger of uneven application of front wheel brakes is avoided because the front axle is held rigidly at right angles to the chassis centre line, and there is no possibility of uneven tension upon brake rods.

The new car is completely equipped with five steel spoke wheels, improved method of chassis and motor lubrication, four hydraulic shock absorbers, speedometer, windshield wiper, rear view mirror, remote door latch controls. There are six body styles: Tudor, Fordor, Sport Coupe, Coupe, Sport Roadster, and Phaeton. Each style will be available in an extensive range of optional color combinations.

Unusual performance unprecedented in the light car field is claimed for the new Ford model "A". It will attain a speed in excess of sixty miles per hour and may be held at that speed for long periods without discomfort to passengers or injury to the mechanism. It has been driven at more than forty miles an hour in intermediate gear. It manoeuvres with great ease, negotiates the roughest roads at speed without undue body motion, holds on a sharp unbanked curve at 45 miles per hour, and has a turning radius of only 17 feet.

Production at present is centering upon the Tudor model. Other models will be available later.

# The NEW CAR

ALL THAT engineers have learned, all that millions of owners have experienced in nearly a quarter of a century, have made possible this car which is today as far ahead of its time as was the famous Model T in 1908.

Sixteen million automobiles, serving their owners in jungle and desert, on mountain and plain, on boulevard and highway, were this test cars that have made this new automobile possible. Its advent marks a new epoch in automotive engineering in point of built quality—needles of mechanical design, lavish use of the finer metals, precision in delicate machining processes.

Nowhere in its construction has there

been slighting of either major essentials or minor details. From its outermost hub-cap to its innermost bearing, the new Ford car epitomizes engineering skill to a degree unexcelled in the annals of motor car manufacture.

This entirely new car surpasses the accepted standards of light car accomplishment sweeps aside all boundaries of price class; establishes a new standard of acceleration, speed, power and smoothness that heretofore has marked only expensive cars as fine cars. Yet Ford precision in large scale production, unparalleled in the history of automotive manufacture, places this car within the reach of every purse.

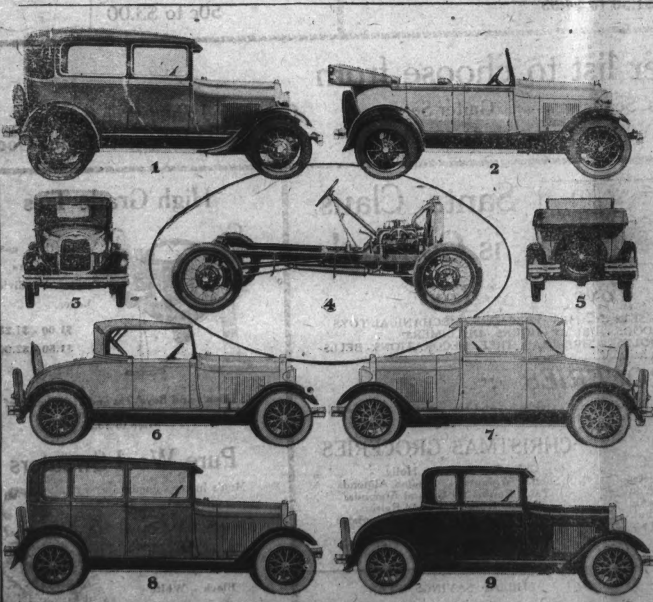

An advance showing of the New Ford Car will be made Friday, December 2nd, in the following cities:

Halifax, Peterboro, Winnipeg, St. John, Toronto, Regina, Quebec, Hamilton, Saskatoon, Sherbrooke, Brantford, Moosejaw, Montreal, London, Calgary, Ottawa, Windsor, Edmonton, Kitchener, Ft. William, Vancouver, Victoria.

As rapidly as increasing production permits these public showings will be extended until all of the 736 Ford dealers have been covered. If you live in one of the cities listed above, visit the exhibit of this New Car. At other points, see your local dealer next Friday. He will give you complete specifications, prices and an excellent conception of its unusual features.

FORD MOTOR COMPANY OF CANADA, LIMITED, FORD, ONTARIO

### FIRST AUTHENTIC PHOTOGRAPHS OF THE NEW FORD CAR

The six body models and chassis of the new Ford are shown above. The new car has graceful, distinctive lines, exceptional power, unusual speed and getaway. It has been driven at more than sixty miles per hour; accelerates from 0 to 25 miles per hour in 8 1/2 seconds; in high gear; travels 40 miles per hour in second gear; is fitted with three-speed transmission of Lincoln

design and is completely equipped. Each model is offered in a number of bright optional color combinations. No. 1 is the new Tudor; 2 the new Phaeton; 3, front view of the new Tudor; 4, the new Chassis; 5, rear view of the Phaeton; 6, the new Sport Roadster; 7, the new Sport Coupe; 8, the new Fordor Sedan and 9, the new Coupe.

### "Lord Nelson" at Halifax Among Dominion's Finest

Upper—Two stories to the Public Garden, where the new hotel is to be located. Lower—As the "Lord Nelson" will appear when completed.

While interest has been created by the recent announcement that Halifax is to be provided with one of the finest hotels in the Dominion. The project met with instant approval and financial backing, those materially interested regarding the city's need for such an institution in view of Nova Scotia's historic, scenic and recreational advantages.

That the new "Lord Nelson Hotel" as it will be known, is solidly supported on a business basis, as well as on grounds of civic pride, is shown by the fact that the Canadian Pacific Railway has secured over a half interest in the project, which Company's hotels are notable among the leading chains. This Company will direct to a large extent the management of the hotel. According to E. W. Beatty, Chairman and President of the Canadian Pacific, the present conditions in Halifax and the Province of Nova Scotia in every way justify the building of the "Lord Nelson."

The new hotel will be in keeping with the historical charm of Nova Scotia, the name itself recalling the epic of British history. The building, from an architectural standpoint, will be carried out in Georgian style, the type of architecture

reviewed in Lord Nelson's time. The first sod in its construction firm and work begun on a building that will be in keeping with the importance of Nova Scotia's capital. The location of the "Lord Nelson" is one of the outstanding features of the new venture. It directly fronts the famous Public Gardens, the pride of the residents of Halifax. These Gardens cover many acres and are located in the heart of the city at the corner of Spring Garden Road and South Park Street. Around this paradise of flowers, radiate the North West Arm with the celebrated

Wingwall Club, Point Pleasant Park, the station, harbor and business district of the city. The Province of Nova Scotia has gained a wide reputation for scenic and historic attraction. Some idea of the increase in tourist traffic into this province is gathered from government reports that visitors last summer by rail and water increased 50 per cent over the same season of 1920. Residents of Halifax feel that such an institution as the Lord Nelson, which was opened in less than a year, will give further impetus to commercial and tourist traffic through this centre.

They Last  
After Christmas

Many men and women who wanted to offer their families something more than the pleasure of a day, have chosen Atwater Kent Radios as their gift.  
This year even more people will solve their problems in the same enduring way. For here, in this simple, beautiful, reliable instrument, is happiness that lasts.  
If your home lacks a radio—is it not Christmas the time to put it there? Or, if you have a set which does not do justice to the really fine programs—what better can you do than replace it with Atwater Kent Radio?  
Through the months, the years, every day will renew the satisfaction of the first day and gratitude to the thoughtful giver.

MORE THAN HALF OF  
WHEAT CROP HANDLED  
BY POOL

Out of 335,000,000 bushels of wheat imported in the western livestock division for the crop year 1926-1927, a total of 179,559,342 bushels, or 53.6 per cent, was handled by the central selling agency of the wheat pool, according to the report of the president and directors of the central board, presented at the annual meeting of delegates of the Alberta Wheat Pool in Calgary during the past week. In the past year the pool shipped grain direct to 24 countries, through 60 ports, exporting 107,600,000 bushels through eastern Canada, and 16,330,388 bushels through western ports, the total amount exported amounting to 124,130,388 bushels. The net proceeds from the sales totalled \$222,930,969.65.

## Weddings

## CHERRY—JOHNSON

Miss Ida Bertina Johnson and Mr. John Mark Cherry, both of Banff, were united in marriage at the Presbyterian Manse, Bassano, on Wednesday afternoon, November 23, at 4 o'clock. Rev. A. O. Thomson led the nuptial rite. The young couple left on the midnight train for Calgary.

## LENDAY—LEONARD

A very pretty wedding took place in Medicine Hat on Wednesday, Nov. 23d, at the home of Mr. and Mrs. Robert T. Johnson, when Miss Edna Winifred Leonard, daughter of Mr. and Mrs. S. Leonard, of Bassano, was united in marriage to Mr. Robert Alexander Lenday, of Medicine Hat. The bride was attended by a dress of pale green tulle, trimmed with georgette of the same shade, and a scarf of cream crepe de chine, with touches of blue and pink. Mrs. Johnson, the bridesmaid, wore a dress of pale green chiffon and georgette. The groom was supported by his brother, J. L. Lenday. Rev. Mr. Leonard was the officiating clergyman. After the ceremony supper was served to sixteen guests. The table was decorated with pink and blue carnations; the centre piece bore the wedding cake, which was cut by the bride, who was assisted by her mother. The happy young couple received many beautiful gifts and hearty congratulations. They will reside in Medicine Hat.

The happy young couple received many beautiful gifts and hearty congratulations. They will reside in Medicine Hat.

## Here and There

Establishing what is believed to be a world record, J. H. Hoover, of Banff, Sask., recently dug a total of 171 potatoes from one hill.

A new record for the Port of Montreal was set up Saturday, October 22nd, with 1,042 ocean-going steamers having entered the port of Montreal (with five more or so yet to run) as compared with 1,012 for the whole of last season.

All wheat yields in a season of amazing returns, as the board on October 20th when J. P. Cook, of Banff, 24 miles south of Lethbridge, Alberta, reported a return of 171 bushels on a piece of fall-plowed land measuring slightly over two acres.

Increasing interest is being manifested throughout the country in the project sponsored by the Department of National Defence, light-airplane clubs, and two other bodies, to build a new flying school at the Government to fulfill its part of the scheme by shipping the two Mth plans provided under the provisions of the plan. Montreal and Edmonton are the first two applicants.

## Local News

Regal, B.M. Wicks was in Regina last Monday on an inspection trip. J. W. Balmor was a visitor to Calgary last week-end.

J. W. Boyce went to Ducks Lake Monday to inspect the schools there. Mrs. J. F. King spent several days in Calgary last week.

Ralph Riegle returned on Wednesday from a week's trip to Moose Jaw. Miss Myrtle Hallie spent the week-end with relatives in Medicine Hat.

Mrs. E. A. Beck visited in Brooks last week-end with Mr. D. H. Bark. W. McKenzie was in from his farm near Rosemary on Thursday.

Mr. and Mrs. M. E. Oranlund and little son were visitors to Calgary last week-end.

Wm. Marshall made a trip to the Bull Pound last Monday with a load of gasoline and oil.

Miss Margaret Ritchie returned to Bassano on Thursday and has rejoined the staff of the local hospital.

Mrs. Haddock, of Huskar, is a patient in the local hospital, and is now doing nicely after an operation.

Miss Mamie Enil left on Monday for Seattle, Washington, where she will spend the winter with relatives.

Mrs. W. E. Sambrook and Mrs. Roy Cline went to Calgary on Thursday.

A son was born to Mr. and Mrs. F. Blake, of Huskar, in the Bassano Hospital, on Saturday, Nov. 26th.

Mr. Heffebower, who is a patient in the local hospital, is reported to be making good progress.

George Nelson, of Makepeace was a business visitor to Bassano on Thursday.

Jimmy White was in from his farm near Majorville this week to get his horses that he had left in a pasture south of town.

Harry Ross, of Latham, has been selected as one of the judges at the Calgary poultry show.

Ray Smith was in Calgary the early part of this week to see the new Model Ford car.

Chas. Waltemath was in from Tuesday making preparations for his big sale of horses on Tuesday, Dec. 6th.

Eight marriage licenses were issued from the Bassano court office on November 23. This was a record month for the local office.

Mr. and Mrs. S. Leonard returned Thursday from Medicine Hat where they attended the marriage of their daughter, Edna Winifred, to Bob Alexander Lindsay.

The Women's Institute is asking for donations for a pantry shower for Mrs. Zelnick on Saturday, Dec. 26th. Kindly leave donations at Currie & Milroy's store.

Very few cars are in operation, the roads being in bad shape, and many are impassable.

The Rev. Canon Harrison, of Calgary, will preach in the Anglican Church on Sunday evening, Dec. 26th, at 7.30.

Howard and Dale Ferguson and Mrs. M. E. Ferguson were visitors by stage from Colesburg on Saturday.

R. H. Struthers was in charge of the Crown Lumber Co. yard during the absence of M. E. Oranlund who has been away taking stock in the company yards in neighboring towns.

A. C. Bond, E. A. Beck, E. P. Currie and Wm. McLaws attended the "conferance of boards of trade" of southern Alberta, held in Calgary Monday and Tuesday.

## THE RADIO COLUMN

INTERFERENCE MAY  
BE TRACED IN HOME

One does not realize how large a part electricity plays in the modern home until he checks up after having interference with his radio, and discovers the hidden source. The presence of an annunciator system, furnace or ice box control, motor pump, waffle iron, curling iron, electric heaters, warming pad, electric ray machines, vacuum cleaners, wash machines, and what not.

A leak in any of these devices whether resulting from broken insulation or a bad contact, may result in spark production with a consequent broadcasting of high frequency waves.

It was discovered in one case investigated by the engineers connecting the survey that a violet ray machine was audible for more than a block. Similarly, a break in a trolley system caused chaos for a mile along a street car company right of way.

But while serious disturbances were traced to a number of causes hitherto unsuspected, and the troubles of radio ascribed to so many sources that chaos seemed inevitable and irremediable, it was also discovered that in 98 cases out of a hundred the cures are simple, effective, and easily applied.

The violet ray machine, for instance, may be landed if a quarter microfarad condenser is connected across its spark gap. The ancient offender, the sign flasher, is capable of similar treatment. Elevator controls and thermostats on furnaces and ice boxes, which a year ago suffered almost without protest have proved to be easily traced.

In all such cases the remedy is to connect a bypass condenser across the contrivance. These condensers are fairly small in the case of devices requiring very small currents. They run to several microfarads in the case of elevator controls. But they are unobtrusive and function instantly and unobtrusively.

Put the hammock in the attic. It's too cold for it outside. And its mission is completed—Lacy Ann is now a bride.

## Don't Start Drift

A clubman, after a sporty evening, with plenty of whisky, returned home about 1 a.m., finding for his key he found that he had forgotten it, so he tumbled into the hammock on the lawn and was soon fast asleep. He woke shortly after daybreak, and saw his wife regarding him severely from the open window of their bedroom. "I shay," called the muddled one from the hammock, "that that heavy window, will you; I'll stick my head out of cold."

## HERE IS REAL

## DOPE ON THE NEW FORD CAR

Having had a special interview with one who knows, and knowing the public is highly interested in what this new Ford car will be like, we give the following facts about the matter.

The new Ford product will be known as the Lincolndor, taking its name from Abraham Lincoln, its founder, and Henry Ford, its manufacturer. Of course, some other name may be substituted.

The car will be equipped with an engine, body, gasoline tank, radiator, and other accessories usual to any automobile.

The wheels, of which there will be four, will be set on axles and will turn forward or backward, depending on the choice and skill of the driver.

On the extreme front end the car will be equipped with a radiator, which will serve as a reservoir for water with which to water the road as you go along to lay the dust. The front of the radiator will be meshed so as to be an excellent smasher of bugs, insects, other people's chickens and the like.

Situated on the car somewhere will be a gasoline tank which will contain a certain number of gallons of gas, or any liquid sold as gasoline by service stations. A lesser number of gallons can be used, if desired. All seats will be equipped with cushions of more or less softness. On the touring and sedan models the rear seat will be placed directly behind the front seat. Both seats will be protected from the sun, rain, etc., by a top.

In front of the front seat will be a steering wheel. When it is raised, the windshield will become smeared with mud, water, and so on from passing vehicles.

The car will be guided by a steering wheel which will turn left or right as desired, but never both ways at the same time.

Entrance to the car will be gained through doors cut somewhere in the body, or, if desired, by climbing over them.

The sedan and coupe models will be closed cars, the touring and roadsters will be open cars.

It is also expected that the car will have tires on each wheel.

The car will be designed so as to have gears, pistons, cylinders, spark plugs, wires and other doodads. —Kincardine, Ont. Review-Reporter.

1928 RADIO MODELS  
BY WESTINGHOUSE

Have These Notable Advantages and Improvements

## A. C. Batteryless Sets:

Operate on either 25 or 60 cycle alternating current. This is a big advantage should you move where there is different A. C. supply. Designed to use new Westinghouse A.C. Radiotrons UX-226 and UX-227 which operate on either 25 or 60 cycle "Raw" alternating current through a step-down transformer in the set. These Radiotrons avoid the hum and "A.C." noise which have been the chief disadvantages of many types of A.C. Batteryless sets in the past. The UX-227 Power Tube is employed for loud speaker operation.

Both Batteryless and Battery types are made in Four-Load Size-Tube Models. Five-tube models employ controlled rectification which adds greatly to the selectivity and sensitivity of the set. These sets are electrically non-inducting and cannot interfere with the neighbor's reception.

Single-coil antenna assemblies of the 2500 type are used in all models for best appearance and design. The Oval Cone Speaker, best ever produced, is built in all models. The Westinghouse differential resistance with variable tuning is a new feature. The Westinghouse differential resistance with variable tuning is a new feature. The Westinghouse differential resistance with variable tuning is a new feature.

Prices of the "A.C." Batteryless sets from \$225.00 to \$285.00 complete.

## Battery Operated Sets:

Designed to operate with "A" Antenna and "B" Eliminator Units—or batteries, without requiring special neutralization. Designed to use the new Westinghouse Radiotrons UX-201 B requiring half the "A" current of the UX-201 A which has been universally adopted by radio manufacturers in the past. Owners of previous Westinghouse models can use this improved tube by having their Westinghouse Dealer install the re-neutralization and installation of correct resistances at a cost of \$2.25 up, plus express charges.

Prices of the Battery Operated sets from \$250.00 to \$285.00 complete.

BY NELLIE L. MCCLUNG

COPYRIGHT, CANADA, 1935

CHAPTER XIII—Continued.

Helen shivered with the uniform of the air, and looked wistfully after the train as it went on across the bridge to Miss No. 2. The wind whistled over her head, and she felt a sudden chill. The train was already half a mile away, and she knew that she would never see it again. She had been so sure that she would, but now she was alone. The train was a part of her life, and she felt that she had lost a part of herself. She had been so happy when she was on the train, and now she was alone. She had been so sure that she would see it again, but now she was alone. She had been so sure that she would see it again, but now she was alone.

garden for someone else to cut—and that's how it may turn out." Mrs. Turner had been in to have her hair done, and she had been so sure that she would see it again, but now she was alone. She had been so sure that she would see it again, but now she was alone. She had been so sure that she would see it again, but now she was alone.

CHAPTER XIII.

Spring had come with its carpet of flowers, its radiant days and velvet nights, and with its warm, sunny days and its cool, breezy nights. The flowers were in bloom, and the birds were singing. The sun was shining, and the wind was blowing. The world was full of life and color, and Helen was feeling better. She had been so sure that she would see it again, but now she was alone. She had been so sure that she would see it again, but now she was alone. She had been so sure that she would see it again, but now she was alone.

CHAPTER XIII.

Spring had come with its carpet of flowers, its radiant days and velvet nights, and with its warm, sunny days and its cool, breezy nights. The flowers were in bloom, and the birds were singing. The sun was shining, and the wind was blowing. The world was full of life and color, and Helen was feeling better. She had been so sure that she would see it again, but now she was alone. She had been so sure that she would see it again, but now she was alone. She had been so sure that she would see it again, but now she was alone.

Old Prophecy Described

Medieval Magician Predicts Disappearance of Britain in 2424

Paris will be wiped out in the year 2424 and Britain will disappear beneath the waves that she has ruled so long, according to a prophecy of the medieval magician, Nostradamus, that has just been deciphered by the Society.

The destruction of Paris will be accomplished by "air vessels" that will hover over the city dropping death and annihilation, says the ancient prophecy. Nostradamus predicted the French Revolution and two hundred and fifty years before the battle of Waterloo XVI. is described with the most minute details the clothes the king would wear when he was to mount the scaffold.

Nostradamus presented his prophecies to Catherine de Medici. The other appears to have been a conjuring story, harmless and innocuous. Now that the key has been found, a deeper meaning has been discovered.

Seizure For Airplanes

Observer Enabled To Read Position Direct From Instrument

An aeroplane instrument which, according to its inventor, will make possible the reading of position of an aeroplane without lengthy mathematical computations, has been perfected by H. B. Kestner, and is now being used by the University of California. It is authorized by the authorities at Berkeley.

The instrument is similar to a sextant, but it is not designed that it be used for the necessary observations. It is designed to read the observer's position, and it is read directly from the instrument without further work. The advantage of this, it is explained, is to enable the observer to read his position directly from the instrument without further work.
